

Specification for Control Pad Bluetooth® for PS3™

1. CONTROLLER CONNECTION AND SETUP

To use the Control Pad Bluetooth® for PS3™ you must first register or “pair” the controller with the PS3™ console and assign a number to the controller.

STEP 1: Pair the system and the controller.

When using the controller for first time or when using with a different PS3™ console you must first pair the devices. If you turn on the console and connect the controller using a USB cable and press the PS button, the pairing will be completed automatically. And then you can unplug USB cable from the PS3™ console, you can enjoy the game with the controller through Bluetooth® technology.

STEP 2: Assign a controller number.

Every time the console is turned on, a number must be assigned to the controller. Press the PS button, all of port indicators flash. When the controller has been assigned a number, the port indicators for the assigned number turn solid red.

You can connect up to 7 controllers at one time. The controller number is shown by the number above the port indicators. For numbers 5-7, add the numbers of the lit indicators.

•Charging

Charge the Control Pad with the PS3™ console using the USB cable.

2. Tips:

- Turning on the system and connect the controller with a USB cable and press the PS button, the pairing will be completed automatically, then unplug the cable.
- If the controller does not work or no connection with the PS3 system, please pushing into the small hole on the back of controller with a pin/clip. It will resets the controller, then pairing the system and controller again.
- When a paired controller is used with another PS3™ console, the pairing with the original system is cleared. Pair the controller with the console again if the controller has been used with another console.

3. PACK CONTENTS

- 1x Control Pad Bluetooth® for PS3™.
- 1x USB charging cable
- 1x Instructions Manual.
