

SETUP

Make sure your Console is on & your Controller is paired before you start

STEP 1

Carefully connect the Eliminator to your controller, press down on the top of the Eliminator until connected.

The Eliminator device should be flush with your controller.

STEP 2

Once connected move the clasp around to the front of the controller and apply pressure to the Eliminator in the headphone port area until you hear a light clicking sound and the clasp is securely in place.

STEP 3

Connect the supplied USB cable to your Eliminator.

STEP 4

Connect this cable to your Console's USB port.

Once connected the eyes on your Eliminator will glow White to indicate that you are in Tournament mode.

BUTTON MAPPING

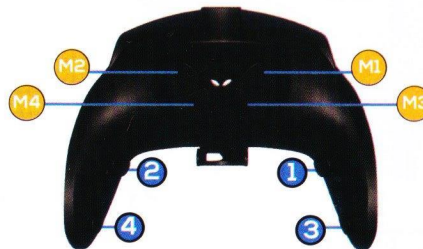

STEP 1

Hold **M1** to map to Button **1**

Hold **M2** to map to Button **2**

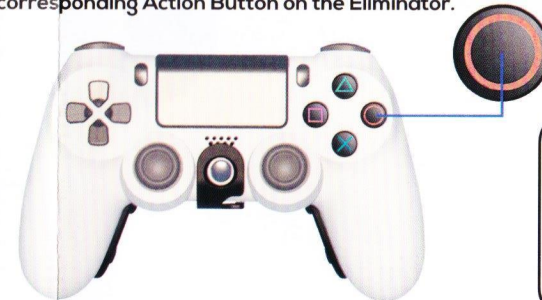

Hold **M3** to map to Button **3**

Hold **M4** to map to Button **4**

STEP 2

While still holding your chosen mapping button, briefly press the button you wish to map to that Action Button. Afterwards release the mapping button. You have now mapped your chosen controller button to the corresponding Action Button on the Eliminator.

Example:

If you hold **M1** (while still held) you briefly press the **L2** button on your controller, then stop holding the **M1** will now be mapped to Button **1**

FPS MOD MODE NAVIGATION

Step 1.

ENTER FPS MOD MODE

- Hold **M1**
- Press **M2**
- Eyes will glow blue

Step 2.

HOLD LEFT D-PAD (For at least 5 Seconds)

Hold the LEFT D-Pad, before moving through the options with the buttons below, keep it held down throughout the process. (Once you have performed an action e.g chosen a class or a MOD, the action will be set when you let go of the LEFT D-Pad).
